#### Hot And Fast at Cornwall Karting Club

It was hot weather and a fast track making up one of the best nights this season. Race teams started showing up early and checking the track conditions for moisture and what types of set-up would be needed for the best performance out of the race machines.

With the seasons points already started ever team checks things twice on their Karts. Many would think that one set-up would be all that is needed for running each week , and that is far from the truth. Each week track conditions change from how wet its is to how dry it is make a difference in each set up. Even driving styles make up a set up as every driver will drive different into and out of the corners, no two driver's drive the same.

At the Cornwall Karting Club safety is first and foremost the important factor each week. The club runs by the W.K.A rules and each and every Kart must meet the strict regulations for safety concerns. As well as the behind the scenes people keep the track and the safety walls in tip top shape so that every race night goes smooth and safe each week.

You could tell during the heats just what kind of night of racing it would be with a near perfect track and perfect racing weather. The heats ran almost flawlessly only gearing drivers and fans up for what would be a great and exciting feature events.

In feature action this week the 12 of Zack Renaud makes some great moves to the front and never looked back getting himself a feature win under is belt. And Speaking of Renaud in the Jr Sportsman 2 Class Dakota Renaud grabs a feature winin the second of 3 features. 1st Feature was grabbed by the number 4 of Jasmin David but not with out a battle from the rest of the field. And the third was taken by the 151 of Bailey Mcdonald but not without some hard work and great moves from a hungry field of karts.

In Jr Sportsman the 94 of Jesse Hudson grabs the checker's for her first feature of 2009.

Jr restricted this week was another 2 feature event with the number 1 of Justin Lalanncette taking and early lead and taking himself yet another feature win. The 3rd was taken by the 8G of Oliver Gough.

The Karting Club runs every Tuesday night with green flag dropping at 7:15. The Karting Club thrives on putting the fun back into racing making it a great family outing with admission only 4 dollar's. Next Tuesday its Angel Printing being the nights sponsors.

And This coming Sunday June 21 its the return of the World of Out Laws Late Model's plus Modifieds and Speedsters Time Trails At 6:30.
