After a few bad lucks with Mother Nature in the last few years, Granby will try to host their event on their initial schedule date. A great field of car is expected to be there with them having an average of nearly 30 cars weekly. The largest track on the tour at 5/8 mile, great speedway will be obtained during the feature race sponsored buy Les Pneus Robert Bernard. In 2008, Mario Clair had won this event after great battles with Kayle Robidoux and David Hébert.

The series will then move to Autodrome Drummond, where over 40 cars showed up last year for their event. A similar field of the greatest modified drivers in Quebec and Eastern Ontario should be on hand for the finale presented by Hyundai Drummond; David Hébert had won the feature in great fashion to pave the way for his second series title in 3 years. The two races in the province of Quebec will set the pace in the series point's chase as good results at these two facilities will be important.

One race is already in the books as Cornwall Motor Speedway was the host of the initial series race in May. A total of 48 cars showed up for the event. Danny O'Brien had won the feature over David Hébert and Mario Clair, Martin Roy and Clément Therrien rounded out the top 5.

The competitors that will take part in all events will be eligible to win a Bicknell Chassis body and bumper valued at \$8,400. Many sponsors such as Bicknell Racing Products, Doiron Racing Engines, Bert Transmission, Mr Radiator, Trick Race Parts, Kirkey Racing et Total Race Supply contributed to this car. A draw between all drivers that competed in 100% of the series race will be done at the end of the 7 races.
